

Adalis Corp. Company Overview

About Adalis Corp.

Headquartered in Vancouver, Washington, Adalis Corp. is a global packaging and supply chain solutions provider differentiated by innovation, expertise and optimization capabilities. With extensive knowledge in package design and development, packaging manufacturing and supply chain optimization, Adalis creates custom solutions for specific client needs. More than 600 clients in 40 countries rely on Adalis to optimize performance, improve bottom line and achieve competitive advantage in the marketplace.

Adalis Expertise

Balancing innovation, technology and sustainability, Adalis is committed to delivering quality solutions and services that help companies achieve maximum results. Combining its global perspective with collective industry experience, Adalis applies its proven, disciplined approach with an emphasis on sustainability in four distinct practice areas:

Manufacturing Optimization

As a leader in packaging process optimization, Adalis works with corrugated and folding carton manufacturers around the world to enhance plant efficiencies, develop new production capabilities and improve financial performance.

Engineering Solutions

Adalis provides an independent and seasoned perspective to assess current packaging performance and its environmental impact across the supply chain. Based on assessment analysis, custom solutions are developed that optimize packaging design, materials, transportation and warehousing. Packaging designs with optimal protection are balanced with reasonable cost for consumer packaged good manufacturers as well as retail private labels.

Value-Added Technologies

Adding features that improve packaging functionality and performance increases its value. Adalis provides value added technologies for primary and transport packaging to create an environmentally friendly, high-performing package. From display-ready and easy-open packaging to packaging reinforcement and temporary bonding value-added technologies can reduce overall costs, increase functionalities as well as improve package durability and ease-of-use.

Supply-Chain Optimization

Adalis helps companies increase productivity, improve efficiency and reduce waste in packaging. From packaging supply chain analysis and sourcing to production and distribution, Adalis examines packaging processes to determine where and how sustainable practices can be implemented to optimize the supply chain and achieve long-term cost-savings.
